

## SUBVISORY bulletin week of 11th December 2015

Dear Subvise

The Subvise REACH Newsletter is tailored to you, showing you all the regulatory changes to your personal chemical list since your last newsletter. To update the list of chemicals in your Subvise REACH Newsletter visit <http://www.subvise.com>

### Echa News Updates:

#### [New chemicals to fall under export notification obligation](#)

04/12/2015 - News alert

Annex I to the Prior Informed Consent Regulation (PIC) has been amended with 12 new entries, which cover a total of 143 chemicals. The amendment will enter into force on 1 February 2016. To continue exporting these chemicals without interruption, a notification should already be submitted in December 2015.

#### [ECHA's committees finalise evaluation of bisphenol A restriction proposal](#)

07/12/2015 - Press release

ECHA's Committee for Socio-economic Assessment (SEAC) has concluded that the socio-economic benefits of restricting bisphenol A (BPA) in thermal paper are unlikely to be higher than the socio-economic costs. SEAC also noted that there are other considerations in favour of the restriction that should be taken into account by the European Commission in making their decision. The Committee for Risk Assessment (RAC) had previously concluded that the risk for workers handling thermal paper was not adequately controlled.

#### [REACH Guidance document on use description updated](#)

08/12/2015 - News item

ECHA has published an update of Chapter R.12 of the Guidance on information requirements and chemical safety assessment (IR&CSA) on use description.

#### [SEAC concludes on three restriction proposals and three authorisation applications](#)

09/12/2015 - News alert

The Committee for Socio-economic Assessment (SEAC) adopted final opinions on the restriction proposals for Bisphenol A and PFOA and agreed on draft opinions supporting the restriction of methanol and authorisation applications for three substances.

#### [RAC concludes on methanol restriction](#)

09/12/2015 - News alert

The Committee for Risk Assessment (RAC) also finalises three draft opinions for authorisation and adopts 17 opinions on harmonised classification and labelling.

#### [ECHA's committees finalise evaluation of bisphenol A restriction proposal](#)

07/12/2015 - Press release

ECHA's Committee for Socio-economic Assessment (SEAC) has concluded that the socio-economic benefits of restricting bisphenol A (BPA) in thermal paper are unlikely to be higher than the socio-economic costs. SEAC also noted that there are other considerations in favour of the restriction that should be taken into account by the European Commission in making their decision. The Committee for Risk Assessment (RAC) had previously concluded that the risk for workers handling thermal paper was not adequately controlled.

#### [Many companies still miss their registration duties](#)

10/12/2015 - Press release

The third REACH-EN-FORCE project by ECHA's Enforcement Forum shows that 13 % of inspected companies have missed some of their REACH registration duties. Only representatives and importers are more at risk of non-compliance than manufacturers of substances.

## Registry of Intention Harmonized

Substance Name / EC / CAS	Dossier Intended By	Email Address Of Dossier Submitter If Provided By The Dossier Submitter	Expected Date Of Submission	Notification Date	New entry or update?
branched hexatriacontane EC: 417-070-7 CAS:	United Kingdom	None	31/12/2015	09/11/2015	Updated entry
1,3-Cyclohexanedione, 2-[4-(methylsulfonyl)-2-nitrobenzoyl]- EC: 600-533-4 CAS: 104206-82-8	United Kingdom	UKREACHCA@hse.gsi.gov.uk	31/03/2016	05/11/2015	New Entry
